

Wills Register

The Wills Register is an initiative of the Law Society of South Australia, which allows legal practitioners to track down the location of Wills that have been registered.

The Wills Register can only be accessed by legal practitioners, and the details available include the name and birth date of the person, the date their Will was signed and the location of the Will. A copy of the Will and the details of the Will are **not** available on the register.

The Wills Register is a free service.

We believe that the Wills Register is a valuable service that will assist to locate Wills of deceased persons quickly and effectively.

Unless instructed otherwise, we will proceed to register your Will on the Wills Register. Please let us know at your earliest convenience if you **do not** wish to have your Will registered on the Wills Register.
